

Mount Pleasant Operation

13th May 2026

MACH Energy Statement in Response to High Court Hearing

“Since the NSW Court of Appeal decision in July 2025 regarding the IPC approval of the Mount Pleasant Optimisation Project (Mount Pleasant), MACH Energy has actively pursued all available options to ensure the continuity of this important project.

These options included lodging an application for special leave to appeal to the High Court. As a result of that application for special leave, the NSW Land and Environment Court (LEC) suspended the remitter process for this case.

At today’s hearing, MACH Energy responded to a number of inquiries from the High Court Justices across a broad range of topics related to the appeal. MACH Energy welcomed today’s opportunity to appear as an appellant to the High Court and will continue to operate in alignment with existing approvals and conditions and seek to provide long-term continuity and certainty for its staff, contractors, customers and the local community.”
