

Dorset Road & Castlerock Road Works

Community Update No 5
December 2025

MACH Energy Australia (MACH) owns and operates the Mount Pleasant Operation located approximately 3km north-west of Muswellbrook.

This Community Update is to inform you of the up coming activities for the Dorset Road and Castlerock Road road works project.

Project Timeline:

MACHEnergy

Mount Pleasant Operation

The Castlerock Road diversion works are progressing well. The focus this period is the completion of the Dorset and Kayuga Road intersection upgrade. This involves changes to the intersection and approaches to facilitate pavement construction. It is planned to asphalt the intersection prior to the end of the year weather permitting.

Current period works include:

- Continue Dorset & Kayuga Rd intersection upgrade.
- Continue installation of the permanent drainage structures.
- Bulk earthworks.
- Permanent pavement construction on Dorset Road.
- Powerline modifications.
- During January there will be increased haulage of a gravel import material to the Dorset Road project area. Additional controls will be in place over this period to manage the deliveries and traffic interactions.

During the construction period:

- Traffic control including traffic lights will be in place.
- Varying speed limits on Dorset Road, Kayuga Road and Wybong Road.
- Traffic staging of Dorset Rd for pavement construction.
